

# Setup Guide

## Introduction to Crystal Reports

### - Version 11.0

To complete the activities in the Introduction to Crystal Reports curriculum, review the information in this setup guide to ensure you have the correct modules, case studies, and settings defined.

### *Software Requirements*

<i>Software</i>	<i>Version</i>
<b><i>Sage MAS 90 and 200</i></b>	
• Library Master	4.20
• Common Information	4.20
• General Ledger	4.20
• Accounts Payable	4.20
• Accounts Receivable	4.20
• Inventory Management	4.20
• Purchase Order	4.20
<b><i>Introduction to Crystal Reports Case Study (SB1)*</i></b>	10.0
<b><i>Crystal Reports 10 for Sage</i></b>	10.0
<b><i>SOTAMAS90 ODBC Driver</i></b>	4.10.0700
<b><i>Microsoft Word or other text editor</i></b>	2000

\* **Note:** Refer to the Welcome and Introduction lesson in the Introduction to Crystal Reports course curriculum for information on downloading the case study.

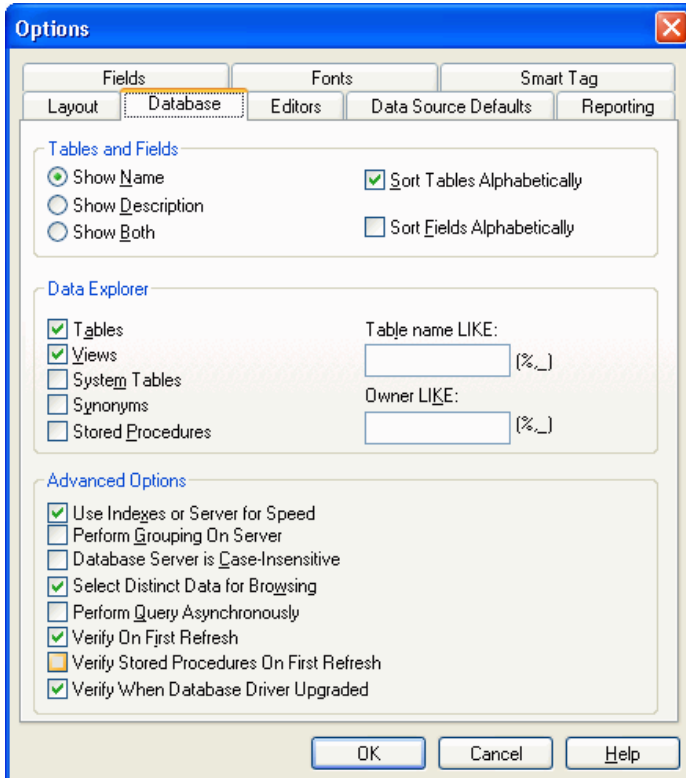

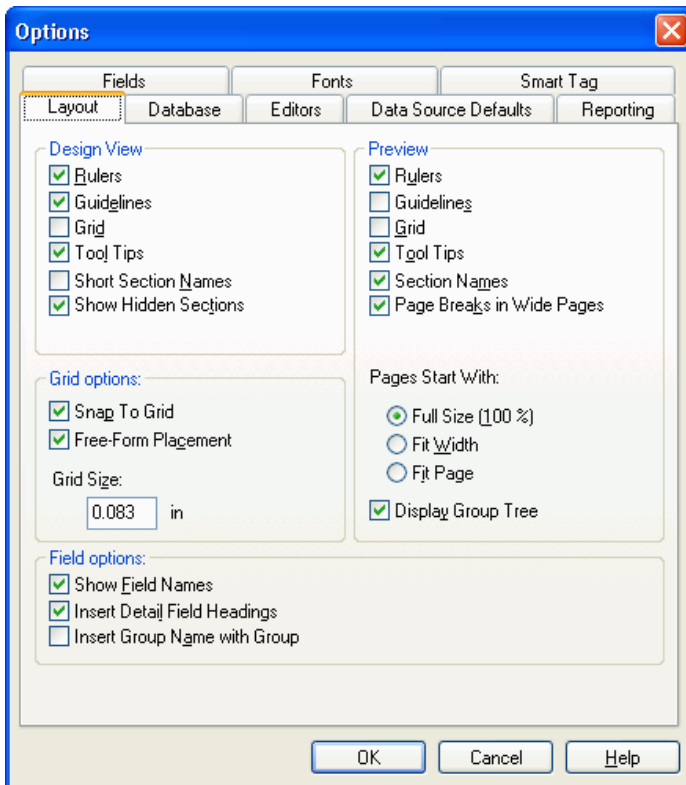

### *Special Security Settings*

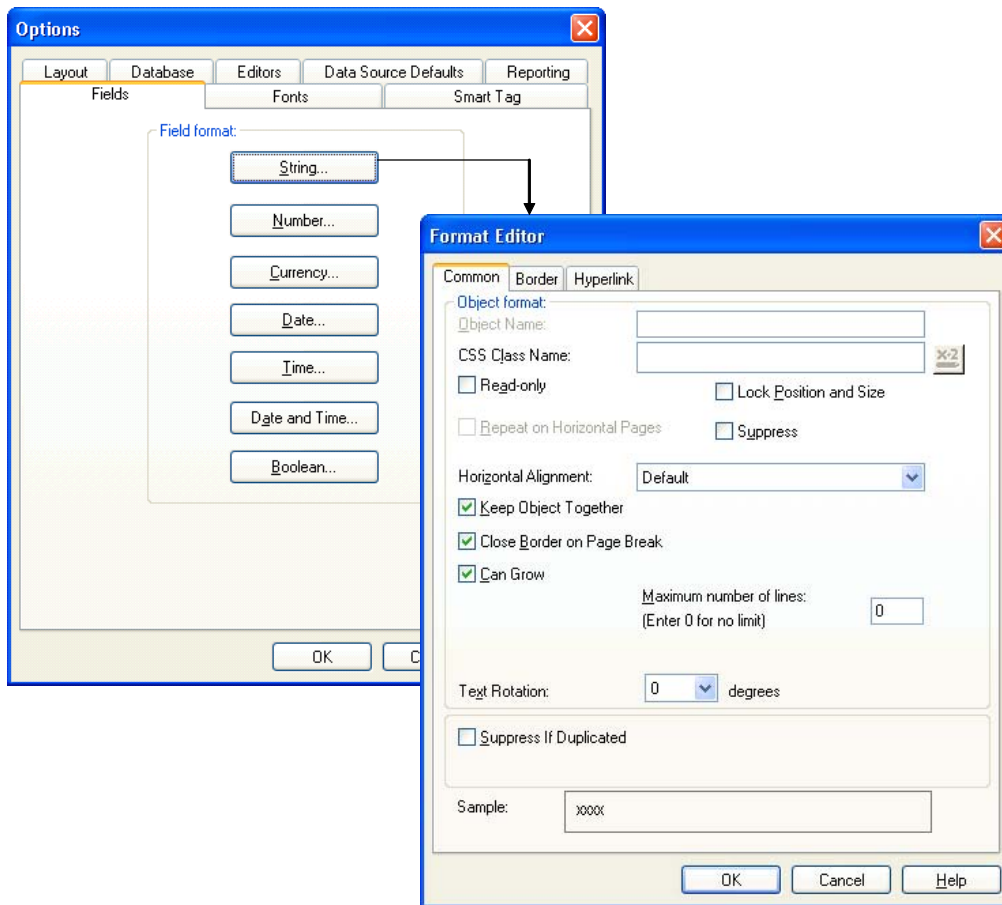

Some activities may require you to select a specific user of RMD or Supervisor. These users were created in Sage MAS 90 as part of the classroom training and have full access to all tasks, security events, and module options.

- If you are able to create user logons and modify roles, create RMD and Supervisor as users. Assign them to a role with full access to all tasks, security events, and module options. Provide access to all companies created as part of the case study.
- If you cannot create these users, substitute your logon name when prompted to select either RMD.
- If security is not enabled, you may not be able to complete all steps in an activity. For example, some activities may require you to create a specific user logon. If this occurs, skip the activity.

## Special Settings for Crystal Reports

Set the parameters as displayed below and on the following page in Options on the File menu in Crystal Reports before completing the activities. Do not make the modifications if they will affect your normal settings used in Crystal Reports.

## ***Additional Information***

- You will add a new report to MAS 90 when you do the activities. You can choose not to add it or you can remove it when you are done.
- You will also modify reports and create a new report setting (4.x business framework modules) and formats (non-4.x business framework modules). You can reverse the report changes and delete the new settings and formats when you have completed the activities.
