

Setup Guide

Manufacturing Integration Lab – Version 12.0

To complete the activities in the Sage MAS 90 and 200, Manufacturing Integration Lab curriculum, review the information in this guide to ensure you have the correct modules, case studies, and settings defined.

The Integration Lab is intended to provide you with an opportunity to work with all of the modules together.

Software Requirements

Software	Version
Sage MAS 90 and 200	
• Library Master	4.30
• Common Information	4.30
• General Ledger	4.30
• Accounts Payable	4.30
• Accounts Receivable	4.30
• Inventory Management	4.30
• Bill of Materials	4.30
• Work Order	4.30
• Material Requirements Planning (MRP)	4.30
Manufacturing Case Study (MFG)*	12.0
Crystal Reports for Sage MAS 90 and 200	10.0

***Note:** Refer to the Welcome and Introduction lesson in the Sage MAS 90 and 200; Manufacturing course curriculum for information on downloading the case study.

You can use Sage MAS 90 and 200 Extended Enterprise Suite when teaching these classes, but be aware the curriculum has not been specifically tested with this version of the software.

Special Security Settings

Some activities may require you to select a specific user of RMD or Supervisor. These users were created in Sage MAS 90 as part of the classroom training and have full access to all tasks, security events, and module options.

- If you are able to create user logons and modify roles, create RMD and Supervisor as users. Assign them to a role with full access to all tasks, security events, and module options. Provide access to all companies created as part of the case study.
- If you cannot create these users, substitute your logon name when prompted to select either RMD or Supervisor.

- If security is not enabled, you may not be able to complete all steps in an activity. For example, some activities may require you to create a specific user logon. If this occurs, skip the activity.
