

# Activity Report Files

## Sage Timberline Office and Crystal Reports

### Do I Need to Download These Reports?

The authorized training workbooks for Crystal Reports for Sage Timberline Office show you how to design reports using the software. Activities in the workbooks walk you through procedures using the sample reports provided on this CD. If you plan to participate in a Sage Timberline Office training course for Crystal Reports or use the workbooks for self-study, you should copy the activity reports for that class to your computer's hard drive.

### Which Set of Activity Reports Do I Need?

When you go to the Training Data page, you will see listings for the Crystal Reports courses. Download the zip file for the course you are attending. If you are interested in obtaining a workbook for any of the other classes, you can order it through your business partner or certified consultant.

Course	Crystal Version
